DETAILED ACTION

Election/Restrictions

1. Claims 2-4, 8 and 9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on February 26, 2005.

Applicant elected Species II, which is the embodiment illustrated in Fig. 3. The tab structure in that embodiment has an exterior surface with an adhesive material applied to the surface, but it does not have a flap to cover the exterior surface. See pages 14 and 15 of the specification. Only the non-elected embodiment of Fig. 7 features a flap.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis for "said adhesive portion" (line 13). Also, it is not clear whether attaching the display to a secondary surface is intended to be positively recited as a method step. Assuming it is, the claim would allowable if rewritten to make that clear.

Allowable Subject Matter

4. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
